Introduction by the Vice President of Student Affairs

Welcome to our first attempt to create a packet reviewing the year for the different student affairs departments at Mid-Plains Community College. The creation of this report was the end result of an AQIP Action Project. A group consisting of faculty and staff met to determine the needs and provided advice on the creation of this report. The final project is a report that should be created on an annual basis to help measure the effectiveness of the departments in student services and student services as a group.

The 2014-2015 school year was the first year to have a single Vice President of Student Affairs for all of these departments area wide to report. We do have room to grow in how we become a data-informed organization, but we are starting to track and analyze the key data in our departments to make better decisions. The push for this assessment is to be able to be an organization committed to continuous improvement. We want to be able to take risks and then evaluate the outcome and keep the good and learn from the bad.

When you look through this report you will see that our departments are at different levels of tracking and using assessment data to make informed decisions. We plan to continue to work towards a common format and reporting timeline to help the process work better. Being the first report, there are parts left incomplete, but we hope to continue to improve our team reports and the decisions we make based on the data presents. As a department, we still need to try and figure what are the values our department has as an entire division.

This next year we hope to build on some of our successes that include an increase in our full time fall to fall retention rate of 59% and an overall satisfaction score of 3.81 on the completers report for all our departments. Our biggest challenge is finding a way to grow our non-UPRR enrollment. If you have questions about this report, please contact me at (308) 345-8119 or e-mail at longa@mpcc.edu

Mid-Plains Community College Team Report

Team Name: Student Affairs Division
Team Leader Name: Andy Long
Report Date: June 5, 2015

Department Roles:

1. Assist students in the successful completion of academic programs.
2. Grow non-UPRR enrollment
3. Provide quality service to assist students to reach their goals.
4. Provide quality service to internal partners to help students in support of their goals.
5. Create an engaging workplace for student services staff

<tr>
<td>Cohort Default Rate</td>
</tr>
</tbody>
</table>

ANALYSIS:

Over the last couple of years there hasn’t been any trends in the direction of some of our key indicators of success. For the 12.1% cohort default rate there was a transition to all direct lending so there is a chance that a large number of students consolidated loans that year to drop our rate. 12.1% is amazing, but probably isn’t a very accurate indicator to compare our other numbers to the 12.1% number. The last couple of years have seen a variety of new staff members and the transition of responsibilities.
ACTION PLAN FOR NEXT YEAR:
The addition of team reports and increased assessment should help us improve these numbers. The use of data-informed decisions to drive our key numbers should help. Another project that should help is the strategic enrollment plan and a comprehensive look in how we need to grow. As we have new staff feel more comfortable in their roles it should also increase our numbers. I feel good about the staff we have added in the last year to help us achieve our goals.

Goal 2 – Grow non-UPRR enrollment

</tbody>

ANALYSIS
Besides UPRR, we have shrunk continuously for the last three years. As our area high schools have shrunk and the unemployment rate has gone down our enrollment has also shrunk. We need to come up with new strategies to find new markets to grow. We have shifted from recruiters and advisors to more enrollment counselors, hoping this model with help us grow.

ACTION PLAN FOR NEXT YEAR:
The Strategic Enrollment Plan is a major initiative to try to reverse the trend of declining enrollment. We have also shifted to having a full-time tech enrollment counselor and have shifted some responsibilities to be able to increase our recruiting efforts.

Goal 3 - Provide quality service to assist students to reach their goals.

</tbody>
</table>

ANALYSIS
The highest scoring department was admissions (4.00) with advising, the library (3.85), and financial aid (3.83), and student activities (3.78), all above 3.75. Recruiting (3.63) and housing (3.68) were the lowest. This is still pretty good with the improvement of facilities and construction happening all spring semester in McCook.
**Action Plan for Next Year:**

By next year we'll have consider facility upgrades done in housing to help that area. The inclusion of these numbers in team reports should help each department look at where they can improve on these numbers. With some of the senior leadership in place for at least a year, we should be able to undertake some initiatives to improve these scores.

**Goal 4 - Provide quality service to internal partners to help students in support of their goals.**

<td>2</td>
<td>4.0</td>
<td>3.75</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Analysis:**

Overall, a 3.75 wasn't a bad score, but I would like us to get to a 4.0 level across the board. Currently, we have two departments, Learning Resources (4.03) and Students Success (4.00) at 4.0 or higher. The lowest scoring areas are financial aid (3.63), student life/housing (3.47), and recruiting/admissions (3.37). This was the first year for this so it is really a baseline year.

**Action Plan for Next Year:**

One part we plan to do is to reach out to other departments. Recruiting and Admissions have assigned an enrollment counselor or recruiter to each academic division to increase communication there. Financial aid has started having more regular meetings with the business office and we plan to continue this. All departments plan to market themselves internally better and we hope to increase our strengths training internally to help our staff perform better with internal partners.

**Goal 5 - Create an engaging workplace for student services staff**

<td>4</td>
<td>4.0</td>
<td>3.88</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Analysis:**

3.88 is O.K., but we have definite room to improve in the following questions:

- In the last seven days, I have received recognition or praise for doing good work: 3.29
- The mission/purpose of MPCC makes me feel like my job is important: 3.81
- In the last six months, someone at work has talked to me about my progress: 3.35
- Areas of strengths include:
  - I know what is expected of me at work: 4.26
  - At work, I have the opportunity to do what I do best every day: 4.26
  - My supervisor, or someone at work, seems to care about me as a person: 4.45
  - My fellow workers are committed to doing quality work: 4.23
ACTION PLAN FOR NEXT YEAR:
For this next year we want to put more emphasis on a strengths based work environment by using the Strengthsfinder with all employees in student services. We also plan to discuss with managers how we can increase recognition. This may be a two year project.

REVIEW OF PRIOR YEAR (STRENGTHS)

1. What accomplishments from the last year does the team feel really proud?
The increase in our fall to spring retention rate to 59% was a considerable jump from the previous year.

2. What accomplishments outside of the K.P.I.s did the team have?
The start of some projects this year, including the strategic enrollment plan, the development of team reports to cabinet for all departments, and the introduction of strengths based management to two of the deans don’t show up in the numbers now, but should show growth in the future. With the transition from McCook V.P. to McCook V.P./V.P. of Student Affairs I feel good we have weathered the transition and still undertaken some projects to significantly improve our performance.

GOALS FOR UPCOMING YEAR

1. Will any of the K.P.I. goals change and why?
For some of the numbers, we’re still figuring out what the right goal will be.

2. Are there any specific team goals for the next year to try to influence the K.P.I.s
Each department team goals should reflect this. As an entire division, putting an emphasis on strengths and recognition, should help our overall situation.

3. What are the major challenges the team faces (weaknesses)?
A lot of these processes bring about change and that is difficult for some. A major challenge is also the change in personnel the last couple of years. A third challenge that is continuous is to try to keep everyone on the same page from multiple locations and departments.
## Mid-Plains Community College Team Report

**Team Name:** Student Affairs Division  
**Team Leader Name:** Andy Long  
**Report Date:** June 5, 2015

### OPPORTUNITIES

1. **What opportunities does the team envision?**  
   We would like to continue the Great Manager training for 2-3 staff on a yearly basis to get all of our managers training in strengths-based management.

### THREATS

1. **What outside threats can affect the results from this team over the next year?**  
   One of our biggest threats is the demographics of the area we serve. This makes it more challenges to try to grow. It is also difficult

### CABINET REQUESTS

1. **What special requests need to be considered by the College Cabinet?**  
   It is important as we start initiatives from student services that we have cabinet support and they try to encourage their staff to participate in events like strategic enrollment planning and orientation.

2. What did the team accomplish in the last 6 months? We continue to hold classes on the two main campuses, and 4 extended campuses. We also recently opened new sites in Grant and the Lincoln Co. detention center. Bridge program is ongoing and was very successful in year 1, with 5 completers who made deans or presidents list. 4 of the 5 are continuing for the AA degree in IT. New batch of students working on Medical transcriptionist certificate.

2. What are the major challenges the team faces? We have the challenge of retaining enough students to keep classes open in the smaller communities.

3. What challenges lie ahead for the team? Less dollars, higher expectations concerning GED 2014 and career and college readiness initiative.

OPPORTUNITIES

1. What opportunities does the team envision? Hopefully a continuation of the Bridge Program Grant. Branching out to the other communities in corrections education, and other communities for Adult Education as the need arises.

REQUESTS

1. What special requests need to be considered by the College Cabinet? Maintenance of the Bridge Program if the Bridge Grant is not continued. Look at calling it a retention specialist for at risk students.

2. **What are the major challenges the team faces?** Helping students early to make a plan so when they do self-advice, they are informed. Also encouraging re-advisement and making sure they come in. Do not want to block second, third, fourth semester registration for advising but want to keep students informed. Some divisions want to be involved in advising, others do not, so keeping communication lines open with faculty and divisions chairs is a continual need we are becoming more aware of and have made plans to meet to keep everyone on the same page.

3. **What challenges lie ahead for the team?** Returning advising, advising module changes and technology upgrades are in the works, just need IT support and time to develop products to assist students in helping themselves on the front end. Easy tracking system that allows us to make data informed decisions and plan accordingly.

**OPPORTUNITIES**

1. **What opportunities does the team envision?** New software in Jenzabar effects student advising and will need to be developed and students will need to be trained on the front end or during advising appointments. Developing continuing student registration days will help to get students locked in earlier and allow for less traffic in December and January, as well as give faculty more opportunities to be involved in advising during these days.

2. **What special requests need to be considered by the College Cabinet?** If cabinet supports and recognizes efforts of advisor and faculty team work, other departments may buy in more to the need for more involvement at the advising level. Budgeting hours for consulting and training will also need to stay on our radar for future enhancements, maintenance, and developments.

2. **What are the major challenges the team faces?**

- Continual change in secondary school personnel
- Distance and timely visits to all area schools
- **Enhancing employment services involvement**
- **Launching new and maintaining existing career academies with various school schedules**
- **Rule 47 implications on Career Academies**

*Highlighted items have potential goal implications for 2014-15.*
## OPPORTUNITIES

1. **What opportunities does the team envision?**
   - With new secondary school personnel changes, new programs can sometimes be implemented
   - The career academy approach can allow for additional college/dual credit classes to be made available
   - **Improved contacts and relationships with area businesses and industries**
   - **Expand Certification Testing Center offerings to include MorphoTrust fingerprinting capabilities**
   - **Enhance Employment Services by updating and offering a room for employment searches, employment interviewing, etc.**
   - **Apply for NCTA Certification for Test Center**
   - We expect some opportunities from information gained from the Community Input Sessions

   *Highlighted items have potential goal implications for 2014-15.*

## REQUESTS

1. **What special requests need to be considered by the College Cabinet?**
   - Continue to support Career Services programs and activities

ANALYSIS

- There is no current data available. Data will assess student need for individual and group therapeutic services, student perceived symptomology change as a result of individual and group therapeutic services, student need for Alcohol & Other Drug Use education & prevention, suicide education & prevention, sexual health education, and stress management education, and the change in student awareness of AOD, suicide, sexuality, and stress management issues.
- Data will also provide student suggested socioemotional educational need areas to be addressed in 16-17.

ACTION PLAN FOR NEXT YEAR:
- Use data from 2015-16 to establish goals for 16-17

ANALYSIS

- No current data available. Data will allow the Counseling Department to assess faculty, staff, and administration need for counseling consultation services, and the faculty, staff, and administration perceived increase in awareness and knowledge of MPCC student issues.
- Data will also provide student issue topics that the faculty, staff, and administration would like to learn more about to be able to better serve MPCC students.

ACTION PLAN FOR NEXT YEAR:

- USE DATA FROM 2015-2016 TO ESTABLISH GOALS FOR 16-17.

COUNSELING GOAL 3 - TO BUILD AND INCREASE RELATIONSHIPS WITH COMMUNITY AGENCIES THROUGH OUTREACH ACTIVITIES.

ANALYSIS

- A good first year. Professional Counselors and organizations are more aware of what is available to them now, when compared to year’s past.

ACTION PLAN FOR NEXT YEAR:

- Will take advantage of the traction gathered this year to allocate entire budget in 16-17.
- Will push organizations to develop a plan for service sharing during times of crisis.
- Will have relationships with 5 targeted counties. Will reach out to Lincoln County in 15-16.

# ANALYSIS

- While Student Life is not solely responsible for persistence, Student Life has more contact with residential students than any other body on campus. In playing such a large role in student's lives, we have a large stake in the persistence of our residents.

## ACTION PLAN FOR NEXT YEAR:

- Facilitate a stress management education group to teach students how to manage college and life stressors, resulting in an increase in student retention.
- Use data from 2015-2016 to establish goals for 16-17

---

## REVIEW OF PRIOR YEAR (STRENGTHS)

1. **What accomplishments outside of the K.P.I.s did the team have?**
   - Because Mid-Plains Community College has not had a Counseling Department/Program for many years now, a new program had to be built from the ground up. A major accomplishment completed thus far this year, has been the creation and organization of a Counseling Program that addresses any and all faculty, staff, administration, and student mental health, sexuality, & substance abuse issues, as well as AOD, intimate partner and domestic violence, stress, suicide, and sexual health awareness, prevention, and intervention. The Counseling Program will continue to grow, and data informed decisions will be made as the program continues to be utilized by all stakeholders.

---

## GOALS FOR UPCOMING YEAR

1. **Will any of the K.P.I. goals change and why?**
   - Very likely, yes. The counseling department is being created from scratch, and this is the first year of implementation. Therefore, many of the unknowns are estimates at best, and although expectations are high, we want to ensure that all goals are achievable. Some norming of expectations will take place once we determine the gap between expectations and practice.

2. **What are the major challenges the team faces (weaknesses)?**
   - Costs in laying the foundations of a working counseling center; which include expenditures for the basic required resources, as well as the more specialized resources.
   - With new counseling services available to students, student utilization may be low. We will continue to encourage faculty and staff to support student utilization of counseling services.

---

## OPPORTUNITIES

1. **What opportunities does the team envision?**
   - Continued advances in data-informed decision making practices
### THREATS AND REQUESTS

1. **What outside threats can affect the results from this team over the next year?**
   - Students must feel at ease in seeking out counseling services. Because the North Platte and McCook communities are very small and the present family culture tends to prescribe to the "don't talk, don't feel, and don't trust" rules, many students may feel alienated from seeking counseling services.

2. **What special requests need to be considered by the College Cabinet?**
   - N/A

## Mid-Plains Community College Team Report

**Team Name:** Disability Services  
**Team Leader Name:** Robin Rankin  
**Report Date:** 10/9/2014

2. **What are the major challenges the team faces?** Unique accommodations for our ever-changing student population and reporting the way it is now is time intensive and required more time than we have allotted.

3. **What challenges lie ahead for the team?** Increase in disability services students is a trend that will continue for all colleges including ours.

### OPPORTUNITIES

1. **What opportunities does the team envision?** Long term: When we get a solid system in place for intake, accommodating and reporting, the following goals could be implemented:
   - Increase accessibility of MPCC College
   - Increase the awareness the impact accessibility has on student retention
   - Completion of usable accessible DS student forms to increase data capture
   - Increase community outreach via info regarding disability info tools to help student succeed in college

HOUSING GOAL 1. - TO PROVIDE RESIDENTS WITH SAFE, COMFORTABLE HOUSING THAT ENABLES A QUALITY LIVING–LEARNING ENVIRONMENT

|-------------------------|---------------|---------------|---------|---------|---------|---------|

**ANALYSIS**

- Trend through 2012-13 was in 3.53 range. 2013-14 saw significant increase in survey responses to variety of college services in housing question. Appearance is that Student Life is moving in the right direction. Would like to see similar responses for 14-15 data to establish a trend.

**ACTION PLAN FOR NEXT YEAR:**

- Updated MPCC Student Programming Model to provide more events and an increased variety of events
- Have made changes to the Housing Programming Model to encourage social and educational events done regularly throughout the year
- Instituted Student Interest Survey at Reg Days to identify what student interests are and use data to direct programming options

</table>

**ANALYSIS**

- No trend to be found. North Platte North seems to have some spikes in satisfaction, however, it is a small sample of students as N = ~35). Brooks Hall number is good considering the remodeling began January 2015.

**ACTION PLAN FOR NEXT YEAR:**

- Brooks Hall renovation will completed the facilities renovation of Brooks Hall. All rooms will have been updated as well as the lounge, cafeteria, office space, and the addition of an elevator, which should improve student satisfaction with the building.
- Will have an updated orientation for all incoming students to participate in. Expect this to improve resident satisfaction.
- Programming model has also been updated to expand programming options for students.
- Will use Student Interest Survey data to target certain types of activities based on data collected.

**Analysis**

- There is a trend of improvement over the last 4 years. Facilities upgrades and renovations likely have some impact here. Expect this to continue as Brooks Hall renovations are completed.

**Action Plan for Next Year:**

- Encourage students to use the Fix My Room web form for maintenance and repairs.
- Continue to hold residents responsible for their actions and damages.
- Add RA Programming on Room Cleaning and Laundry Room usage
- Implement Residential Inventory Plan and put all items on a rotation plan to prevent heavily worn furniture being put into use.

**Analysis**

- Institutionally, MPCC has maintained consistent and positive feedback from students.

**Action Plan for Next Year:**

- Work to focus on more cultural understanding through passive programming and campus performances
- Engage students to see the broader scope of what understanding others may include: gender, race, religion, SES, geography, sexuality, etc.

### ANALYSIS

- Data prior to 12-13 is spotty and difficult to analyze. Decline in tech student recruiting accounts, in part, for low North Campus occupancy. Attempting to bring Union Pacific students to North Campus housing. Recent renovation should also help with retention and occupancy.

### ACTION PLAN FOR NEXT YEAR:

- Seek to get commitments to contracts earlier in summer for fall 2015.
- Send out roommate contact information in late July. Let people get to know each other before they arrive.
- Continue to push Union Pacific students toward North Campus vacancies.

2014-2015 Student Affairs Team Report

Mid-Plains Community College Team Report

Team Name: Student Life Housing
Team Leader Name: Dr. Brian Obert
Report Date: 6/23/15

ANALYSIS
- While Student Life is not solely responsible for persistence, Student Life has more contact with residential students than any other body on campus. In playing such a large role in student’s lives we have a large stake in the persistence of our residents.

ACTION PLAN FOR NEXT YEAR:
- Continue to engage residents educationally, socially, and as members of a community through RA programs and through regular professional staff interactions.

REVIEW OF PRIOR YEAR (STRENGTHS)

1. What accomplishments outside of the K.P.I.s did the team have?
   - The housing team has taken to the task of utilizing Jenzabar to its capabilities, especially in entry of data and report usage
   - Brooks Hall staff handled a difficult spring semester as MPCC elected to start renovation of Brooks Hall earlier than planned. Their efforts led to generally positive student response to the noise and inconvenience the construction crews generated.

GOALS FOR UPCOMING YEAR

1. Will any of the K.P.I. goals change and why?
   - We are reviewing the Housing Surveys and plan to break up a large survey into smaller, regular surveys that will be conducted at floor meetings. This may lead to changes to some of our questions or even some pre- and post- experience survey analysis.

2. What are the major challenges the team faces (weaknesses)?
3. Housing will start the year with two very new Directors of Residence Life. Our current staff will be able to handle the challenges of planning training without a Director on hand.
4. Housing will work out the kinks in Brooks Hall as it reopens following renovation.
5. New video systems will require training and implementation.
6. New door locks on South Campus may also lead to some adjustments and challenges.

OPPORTUNITIES

1. What opportunities does the team envision?
   - New staff means an opportunity to make some changes to current practices and create new standards. I believe this is the year Housing demonstrates a measurable improvement in quality of service.
   - Continued advances in data-informed decision making practices
## Threats and Requests

1. **What outside threats can affect the results from this team over the next year?**
   - Furnishings and equipment degrade over time and create students dissatisfaction with facilities. Developing a comprehensive furniture/equipment replacement program will minimize this threat to student satisfaction.
   - Occupancy requires that there is a critical mass of students seeking housing on-campus. Housing does not control student interest, but does control housing policy. Policy change could increase housing occupancy by changing requirements for who must live on campus. A housing policy review may be a good idea.

2. **What special requests need to be considered by the College Cabinet?**
   - Implementing an annual budget line for regular replacement of residential furnishings and equipment will improve student satisfaction with facilities.
   - Upgrades to door locks and video equipment will improve security on campus and minimize risk to safety of our students.
1. Assist students in locating and using appropriate print and electronic library resources.
2. Assist patrons with wireless connectivity, computer troubleshooting, password management and Blackboard/CampusWeb help.
3. Assist patrons with making copies, printing, scanning, and general campus FAQ.
4. Provide IDs to all college employees, students, Consolidated Management employees, and visitors.
5. Provide 1:1 and classroom Library Instruction sessions to educate patrons on information literacy.

### Goal 1. - Supporting information literacy

**ANALYSIS:** The LibGuides continue to grow. As they are time consuming, we are adding them as quickly as possible. The faculty survey is in production. Hope to launch this Fall 2015. Faculty requests continue to grow each year. Now that we have tracking available, this is more accurate.

**ACTION PLAN FOR NEXT YEAR:** Continue to expand LibGuides working with faculty. Run the first faculty survey of LRCs. Evaluate the faculty requests to see if we need additional funding for this item.

**Goal 3 - Establish the library as the campus support/information center**

### REVIEW OF PRIOR YEAR (STRENGTHS)

1. **What accomplishments from the last year does the team feel really proud?** # of Library Instruction sessions 200+, over 1200 IDs issued with new software, LibGuides views increased to 5300 from 3200. Door counts still around 80,000 and materials usage continues to climb.

2. **What accomplishments outside of the K.P.I.s did the team have?** Assisting MLT and Nursing with accreditation process. Finalized the statistics collection form, began the Memorabilia project, and served on numerous AQIP and campus related committees. Completed an ILS upgrade and retrained all staff. Expanded services and hours to assist with move-in, Orientation and North Campus NP. Successful training and implementation of the library holds in Jenzabar by library staff. Consistently meeting budget limits, getting evaluations in on time, and expanding our databases available to patrons within budget limits. Presenting at state and regional conferences on various HR related topics. Positive feedback from students and seeing students accomplish goals.

---

### GOALS FOR UPCOMING YEAR

1. **Will any of the K.P.I. goals change and why?** We track a great deal of statistical information in the library. As we evaluate the results, we may include or increase some of the K.P.I.s. As services change, we may change our key points.

1. **Are there any specific team goals for the next year to try to influence the K.P.I.s?** We want to use gaming nights and puzzles as a means of stress relief and breaks from studying to help increase mental states as well as increased grades. This would lend to the goals increasing door counts.

**Team Name:** Learning Resources  
**Team Leader Name:** Tina Walker  
**Report Date:** 2014-2015

### 2. What are the major challenges the team faces (weaknesses)?

- Staffing – mostly part-time leads to high turn-over. Puts pressure on few full-time to cover absences and extended hours. Staffing is skeleton and has very little room for vacations, sickness, or family illnesses without putting strain on other employees. Can effect staffs ability to attend conferences, trainings, extended campuses, meetings, etc…

### OPPORTUNITIES

1. **What opportunities does the team envision?** Working more closely with faculty to expand our services and link up via blackboard and DL courses to our online services. Expanding more services to the extended campuses.

### THREATS

1. **What outside threats can affect the results from this team over the next year?** Faculty input and incorporation into classrooms and blackboard. Lack of knowledge of what services and resources the library provides.

### CABINET REQUESTS

1. **What special requests need to be considered by the College Cabinet?** Would like to merge the part-time days with the part-time night position to make full-time person on both campuses to help alleviate turn-over and create a more steady schedule. Likely long-term and would need to happen during a transition period most likely.

### ANALYSIS:
Over the last year(s) we have seen a turnover in several high school counselor positions in addition to counselors who wear numerous hats and are not available or able to fully engage in the college choice process (and therefore, relationships with MPCC recruiters). Additionally, the MPCC recruitment department has not had a fully staffed recruitment team, and there have been some changes in the roles of recruiters as they became “Enrollment Counselors”. While this change is proving to be a positive, it has taken some time to adjust to. Finally, we have seen trends in many area high schools where senior classes from year to year alternate the type of schools they attend – for example, if many of the 2013 class chose MPCC, then the 2014 class might be more likely to choose UNK or CCC so as not to follow in their footsteps.

### ACTION PLAN FOR NEXT YEAR:
- More focused effort in improving relationships with HS Counselors (and/or other “gatekeepers” at each school)
- Improved MPCC faculty involvement in recruitment efforts
  - This will be done through the following:
    - Each Academic Division will be assigned a representative from the recruitment team to work with throughout the year to improve communication, share ideas, and assist in getting faculty into area high school classrooms
    - Involving MPCC faculty in more on-campus recruitment events (Reg Days, Group Tours, Open House events, Inter-High, etc.)
    - Involving faculty in monthly “call nights”
    - Providing better tools and more assistance when utilizing the lists of potential students, marketing specific programs, etc.
- We now have a trained “Campus Visit Coordinator” who will be effective in not only proactive tour scheduling, but will work to improve the campus visit experience and keep college staff and faculty apprised of upcoming visits so they can meet & welcome them, as well.
- The Campus Visit Coordinator will also aid in more timely data entry while the recruiters are on the road, in addition to effective outreach by responding within 24 hours to each internet inquiry and request for more information.
- We will have a full staff this year, which will aid in timely and effective outreach, as well as the amount of territory that can be covered.
- Purchasing of names from areas bordering our normal recruitment territory will assist in increasing ‘inquiries’ and conversion of inquiries to applicants.
- Staff trained as “Enrollment Counselors” will now be able to provide more comprehensive program and degree completion information to students in the beginning stages of recruitment, which will assist in the overall relationship with students/parents and HS Counselors.
GOAL 2. – INFORM STUDENTS IN PREPARATION FOR BEGINNING COLLEGE

4. MATERIALS AND INFORMATION PREPARED ME FOR COLLEGE

5. SATISFACTION WITH OUTREACH/WHO HELPED ME MAKE THE DECISION (RECRUITER PLAYED A ROLE)

6. STUDENTS SERVED ON A REGISTRATION DAY

ANALYSIS: In previous years, recruiters focused solely on getting names and interest in MPCC through college fairs, high school visits, and events – then turned the enrollment process over to admissions and advising staff. Because of this process, students that recruiters enticed to attend MPCC, then spent the remainder of their time with other staff.

ACTION PLAN FOR NEXT YEAR:

- With the switch to “Enrollment Counselors” – potential students will now spend more time with “recruiters” and be better served because of the comprehensive process from inquiry to enrollment, as well as the one-on-one attention.
- Improved communication with marketing has allowed the recruitment team to be better prepared for this coming year with quality materials already in hand.
- Marketing materials now contain more effective information, as well as ‘calls to action’ and the proper sequential steps necessary to apply, tour, test, advise, register, etc.
  - New materials, which should prove extremely helpful include: Acceptance packets, more inclusive tour packets (as well as surveys), Admissions Check-Lists, Student Services Folders, and a series of strategic mailings throughout the year.
- Registration Day events continue to improve each year with more involvement from faculty, as well as key departments. Students/parents are reaping the benefits and sharing their appreciation for the quality of the event, as well as the thorough information they are receiving.

GOAL 3. – PROVIDE COLLABORATION COLLEGE WIDE FOR RECRUITMENT ACTIVITIES
7. INTERNAL CUSTOMER SERVICE SURVEY

ANALYSIS: It is not uncommon in higher education institutions for internal satisfaction of the Recruitment Department to be low when enrollments are not at peak levels. However, plans for improved relations are in place for the coming year.

ACTION PLAN FOR NEXT YEAR:

- A priority plan that is already set up to be initiated this year is the partnership between Division Chairs and Recruitment Team (each division will be assigned an Enrollment Counselor to work with throughout the school year).
- Better communication college-wide will help staff and faculty to be more aware of recruitment efforts annually. This will include emails and newsletters sharing goals, events, college fair & high school visit updates, “scorecards” showing numbers of schools visited and students contacted, individual & group tours, etc.

ACTION PLAN for Goal #3 / Item #7 Continued:

- Faculty will be encouraged to join in more on-campus recruiting events – and their involvement in such events will be tracked (i.e. Reg Days, Open Houses, Group Tours, Sports Nights for area high schools, Inter-High, Tech Fairs, etc.)
- Current events are being evaluated for areas of improvement and new events will be added this year (i.e. an “Open House” at MCC & NPCC)
- With the addition of the new “Tech Enrollment Counselor” position – Tech Instructors will receive the assistance needed to help recruit students and market their programs.
- Extended Campuses will be receiving additional support and better communication through:
  o Event Options (Tech Days, Reg Days, Orientation)
  o The email/newsletter updates and Division Chair Partnerships - increasing knowledge of activities and accomplishments
  o Visits from the Admissions/Recruiting Coordinator each semester to discuss ideas/needs
  o Shared give-away items and marketing materials

1. What accomplishments outside of the K.P.I.s did the team have?
- Creation and implementation of “Tech Enrollment Counselor” position
- Streamlined and more efficient daily admissions processes – and continuation of training/consulting in Jenzebar
- Improved Campus Visit Experiences through the addition of a visit coordinator, better training and use of Student Ambassadors, group visits which include time with faculty and hands-on activities.
- Combination of recruiting/advising processes through changed role to Enrollment Counselors
- Began conversations with faculty to open doors for shared recruitment ideas, strategies, partnerships, goals and efforts
- Better communication with the marketing department which resulted in quality materials in a timely manner
- More in-depth conversations with students/parents, from initial recruiting phase to parent sessions at Reg Days, to better prepare them for success
- Cross-training in many areas to better serve students

**GOALS FOR UPCOMING YEAR**

1. Will any of the K.P.I. goals change and why?
The above goals are on target overall. However, for some, we are still figuring out what the specific number goals should be.

2. What are the major challenges the team faces (weaknesses)?
- We will have a fully staffed team and the right players on board – but there will still be adjustments as roles have changed, and training needed for new staff.
- While there are numerous benefits to the new Enrollment Counselor roles, a challenge continues to be each staff member working to serve both internal and external customers, serving multiple campuses and providing quality communication to each department/team-member during peak travel seasons.

**OPPORTUNITIES**

1. What opportunities does the team envision?
- Taking advantage of a fully-staffed team to increase overall outreach
- Purchasing of 6,000 names to increase the target market
- Utilization of combined Recruiting/Admissions Coordinator position to keep everyone on the same page in terms of goals and strategies
- Application of team members’ “strengths” to maximize progress

**THREATS AND REQUESTS**

1. What outside threats can affect the results from this team over the next year?

ANALYSIS

- While Student Life is not solely responsible for persistence, Student Life has more contact with residential students than any other body on campus. In playing such a large role in student’s lives we have a large stake in the persistence of our residents.

ACTION PLAN FOR NEXT YEAR:

- Continue to engage residents through student activities and student organizations.

REVIEW OF PRIOR YEAR (STRENGTHS)

1. What accomplishments outside of the K.P.I.s did the team have?

- While our social programs have been successful in the past, there was little educational programming done. Student activities has taken on the task of developing our students outside of the classroom. Developing the Programming Model was the first step.

- The Student Life team has also taken on the task of reviewing the 14-15 Student Organizations program and making advisor suggested adjustments. Will roll out these changes prior to 15-16 year.

GOALS FOR UPCOMING YEAR

1. Will any of the K.P.I. goals change and why?

- Very likely, yes. This is the first year where we are being purposeful in implementing our student activities and student organizations goals. Some norming of expectations will take place once we determine the gap between expectations and practice. Expectations will continue to be high, but we want to ensure they are achievable.

2. What are the major challenges the team faces (weaknesses)?

3. Costs in bringing in performers is high in our rural location. We will continue to work to minimize costs by stacking bookings (McCook at 6pm and North Platte at 9pm) and by highlighting RA events, Student Organization events, intramurals, and community events.

4. With a relatively low FTE, keeping active student organizations can be difficult. We will continue to encourage faculty and staff to support student organizations.

OPPORTUNITIES

1. What opportunities does the team envision?
### Mid-Plains Community College Team Report

**Team Name:** Student Life Student Activities and Student Organizations  
**Team Leader Name:** Dr. Brian Obert  
**Report Date:** 6/23/15

- Using the in house and community events, activities, and resources at hand to ensure students understand, "if you are bored, it is because you want to be".  
- Continued advances in data-informed decision making practices

#### THREATS AND REQUESTS

1. **What outside threats can affect the results from this team over the next year?**  
   - Student Orgs are successful because of quality advisors. I’d like to encourage some of our faculty members to advise an old organization or create a new one. I fear we are losing advisors in the next couple years that may be tough to replace.  
   - Student activities can get stale. We will look to find fresh new ideas for student programs and take some chances on new programs and ideas.

2. **What special requests need to be considered by the College Cabinet?**  
   - It may be worth increasing the compensation to student organizations advisors. If there are other means of incentivizing student organization advisorship, it might help increase the number of student organizations on campus.  
   - Consider a yearly cost of living increase to the Student activities budget. Performer costs rise with inflation. Our activities line item should as well.
### STUDENT SUCCESS CENTER GOALS:

1. TO PROVIDE QUALITY ACADEMIC SUPPORT SERVICES TO MPCC STUDENTS.
2. TO SUPPORT MPCC STUDENTS IN THEIR PERSISTENCE TOWARD DEGREE COMPLETION.
3. TO INCREASE USAGE OF DATA IN STUDENT SUCCESS DECISION MAKING
4. TO ASSIST MPCC STUDENTS IN THEIR TRANSITION TO COLLEGE LIFE
