

## Special Projects Award

This award will be given to an employee that has completed a substantial project that is outside the scope of their regular duties.

---

### NOMINATION

Name of Nominee:	Becky Meyers
Award:	Special Project
Narrative:	
<p>The AQIP Team would like to nominate Becky Meyers for the Special Project Award. Becky is especially deserving of this award because her participation in AQIP is above and beyond the normal expectations of the role of a faculty member. She has not only committed time, on and off the clock, toward participating as an AQIP team member, but she has also designed and produced many of the materials used to market and communicate information about AQIP. She is a positive team member and serves to represent faculty, college-wide. She presented information to the college during the Turning Over a New Leaf of Accreditation sessions, she has taken part in the Higher Learning Commissions (HLC) AQIP Strategy Forum and plans to attend the AQIP Colloquium during the HLC Annual Conference, positioning herself to be a quality improvement leader for faculty and all members of the college. Becky's patience, level-headedness, and kindness are qualities needed to help the college through this challenging accreditation transition time. Although Becky has only been with the college, full-time for two years, she has played a major role in all AQIP successes to date and she is greatly appreciated by all AQIP team members. Thank you for consideration of this quality candidate for the Special Project award.</p>
