

Above & Beyond Award

This award will be given to an employee that has performed some significant act, or actions, that are well in excess of what is expected of them. This person regularly demonstrates superior competencies and work ethic.

NOMINATION

Name of Nominee:	Karen Bowlin
Award:	Above & Beyond
Narrative:	
<p>Karen is a person that is dedicated to her job. She dearly loves teaching people in whatever aspect of EMS and CPR. She doesn't turn people down if they want to learn. If everyone only knew how far she travels every week to teach and how many nights and weekends she gives up. She is always thinking of new classes we could have and where they would be the most beneficial. When you ask her about EMS she is always excited and loves to find a new challenge. Also, she is very caring and supportive when we have past students that want to pass on their knowledge to teach more people and have their own classes. Therefore, she finds the time to develop a class to teach on instructing their own classes. Karen passes on her own passion to so many people. Her willingness to help and share never diminishes. She is very deserving in what I think above and beyond should be.</p>
